

# TWIST DRILL

(DIN338,DIN340,DIN1897,DIN345,ANSI B94.11M)

# HSS TWIST DRILLS

## DIN338 Drill

Size:  $\phi 1.0 \sim \phi 20.0 / 3/64'' \sim 3/4''$   
Material: 4241, 4341, 9341, M2, M35, M42

Process: Fully Ground, Rolled  
Point Angle:  $118^\circ/135^\circ$

## DIN340 Drill

Size:  $\phi 1.0 \sim \phi 20.0 / 3/64'' \sim 3/4''$   
Material: 4241, 4341, 9341, M2, M35, M42

Process: Fully Ground, Rolled  
Point Angle:  $118^\circ/135^\circ$

# HSS TWIST DRILLS

## DIN1897 Drill

Size:  $\phi 1.0 \sim \phi 20.0$  / 3/64"~3/4"  
Material: 4241, 4341, 9341, M2, M35, M42

Process: Fully Ground, Rolled  
Point Angle: 118°/135°

## Aircraft Drill

Size: 1/16"~1/2"  
Material: 4241, 4341, 9341, M2, M35, M42

Process: Fully Ground, Rolled  
Point Angle: 118°/135°

# HSS TWIST DRILLS

## 1/2-inch Shank Drill

Size:  $\phi 13.0 \sim \phi 30.0$   
Material: 4241, 4341, 9341, M2, M35, M42  
Process: Milled, Rolled  
Point Angle:  $118^\circ/135^\circ$

## DIN345 Drill

Size:  $\phi 5.0 \sim \phi 100.0$   
Material: 4241, 4341, 9341, M2, M35, M42

Process: Milled, Rolled  
Point Angle:  $118^\circ/135^\circ$

# HSS TWIST DRILLS

## Twin End Drill

Size:  $\phi 2.0 \sim \phi 10.0$   
Material: 4241, 4341, 9341, M2, M35, M42

Process: Fully Ground  
Point Angle:  $118^\circ/135^\circ$

## Hex Shank Drill

Standard: DIN338 or Customized  
Size:  $\phi 1.0 \sim \phi 13.0$  /  $3/64 \sim 1/2$ "  
Material: 4241, 4341, 9341, M2, M35, M42  
Process: Fully Ground, Rolled  
Point Angle:  $118^\circ/135^\circ$

**Feature:** We use patented way made with higher concentricity, radial runout within 0.01mm in working, better drilling than punched hex shank drill bits.

# STEP DRILL

## Straight Flute Step Drill

Size: 4.0~45.0mm, x6~x15 steps, 6.0/8.0/10.0/13.0mm shank  
Shank: Round, Hex, Triangle  
Material: 4241, 4341, 9341, M2, M35, M42

Process: Fully Ground  
Point Angle: 118°/135°

This item is produced by customers' specifications, if without we will produce as per our company specification.

## Spiral Flute Step Drill

Size: 4.0~45.0mm, x6~x15 steps, 6.0/8.0/10.0/13.0mm shank  
Shank: Round, Hex, Triangle  
Material: 4241, 4341, 9341, M2, M35, M42

Process: Fully Ground  
Point Angle: 118°/135°

This item is produced by customers' specifications, if without we will produce as per our company specification.

# STEP DRILL

## Tube Drill

Size: 4.0~45.0mm, 6.0/8.0/10.0/13.0mm shank

Shank: Round, Hex, Triangle

Material: 4241, 4341, 9341, M2, M35, M42

Process: Fully Ground

Point Angle: 118°/135°

This item is produced by customers' specifications, if without we will produce as per our company specification.

## HSS Twist Step Drill

Size: Customized

Shank: Round, Hex, Triangle

Material: 4241, 4341, 9341, M2, M35, M42

Process: Fully Ground

Point Angle: 118°/135°

This item is produced by customers' specifications, if without we will produce as per our company specification.

# COUNTERSINK

Standard: DIN335 & DIN347  
Size: 6.0~40.0mm

Material: 4241, 4341, 9341, M2, M35, M42  
Point Angle: 60°/90°

Also we can produce by customers' or our company specifications.

# CUSTOMIZED

## HSS Router Bits

This item is produced by customers' specifications, if without we will produce as per our company specification.

## Drywall Cutting Bits

This item is produced by customers' specifications, if without we will produce as per our company specification.

## Single Flute End Mill

# CUSTOMIZED

## Wood Rotary Burs

Standard: Customized  
Size: Customized  
Material: HSS & 45#

Also we accept development and manufacturing of customized tools by drawings.

## Carbide Rotary Burs

Coarse Cut

Single Cut

Double Cut

Diamond Cut

# CENTER DRILL/TAP & DIE

## Center Drill

Standard: DIN333-A & DIN333-B  
Size:  $\phi 1.0$ – $\phi 10.0$

Material: 4241, 4341, 9341, M2, M35, M42  
Process: Fully Ground, Milled

## Tap & Die

### Hand Tap

Standard: DIN352  
Model: Taper+Plug+Bottoming

Material: G-Cr15, 4241, 4341, M2  
Process: Extracted, Fully Ground

# TAP & DIE

## Machine Tap

Standard: DIN371, DIN376(Over M10.0)

Material: 4341, M2, M35

Model: Straight Point, Spiral Point, Straight Flute, Spiral Flute

Process: Fully Ground

## Round Die

Standard: DIN223

Material: 4341, M2, M35

Model: Round Type, Adjustable Type

Process: Fully Ground

## Screw Extractor

Listed types for you to choose, also we supply customized types of package plus tools combinations.

# MASONRY DRILL/HAMMER DRILL

## Masonry Drill

Standard: DIN8039  
Size:  $\phi 3.0$ ~ $\phi 25.0$   
Length: 150mm, 200mm, 400mm, 600mm

Material: 45# + YG8  
Process: Rolled, Milled

## Hammer Drill

Standard: DIN8035  
Size:  $\phi 3.0$ ~ $\phi 30.0$   
Length: 110mm, 160mm, 210mm, 260mm, 310mm, 360mm, 400mm, 460mm, 600mm, 800mm, 1000mm  
Shank: SDS, MAX, Spline  
Material: 45# + YG8

# HAMMER CHISEL/WALL HOLE SAW

## Hammer Chisel

Length: 140mm, 200mm, 250mm, 280mm, 300mm, 350mm, 350mm, 400mm, 600mm

Shank: Hex, Round, Square Weldon, SDS, MAX

Material: 45#

## Wall Hole Saw

Size:  $\phi 30.0 \sim \phi 160.0$

Material: 45# Body + YG8 Tip

Cut Depth: 72mm, 150mm

# GLASS CUTTER/AUGER BIT

## Glass Cutter

Glass Drill  
Size:  $\phi 4.0 \sim \phi 12.0$   
Material: YG8 Tip

Glass Hole Saw  
Size:  $\phi 3.0 \sim \phi 100.0$   
Material: Diamond Grit

## Auger Bit

Size:  $\phi 6.0 \sim \phi 40.0$   
Length: 105mm, 125mm, 155mm, 200mm, 230mm, 250mm, 300mm, 460mm, 500mm, 600mm, 700mm  
Material: 45#

# BRAD POINT DRILL/GLAT DRILL

## Brad Point Drill

Standard: DIN7487    Size:  $\phi 4.0 \sim \phi 13.0$     Material: 45#

## Flat Drill

Size:  $\phi 6.0 \sim \phi 40.0$     Length: 150mm, 300mm  
Shank: Round, Hex, Triangle    Material: 45#

# FORSTNER DRILL/HOLE SAW

## Forstner Drill

Standard: DIN7483

Size:  $\phi 10.0 \sim \phi 40.0$

Shank: From A, Form C

Material: 45#

## Hole Saw

Size:  $\phi 30.0 \sim \phi 120.0$

Material: 45#

# DIAMOND SAW BLADE

Size:  $\phi 105.0 \sim \phi 500.0$

Material: 65Mn + Diamond Grit, 40Cr + Diamond Grit

We also accept producing other shapes of teeth as per customers' requests.

# TCT SAW BLADE

Size:  $\phi 100.0 \sim \phi 500.0$

Material: 65Mn + YG8, 40Cr + YG8

We also accept producing other shapes of teeth as per customers' requests.

# CORE DRILL

Size:  $\phi 5.0 \sim \phi 350.0$

Material: 65Mn + Diamond Grit

We also accept producing other shapes of teeth as per customers' requests.
